When you entered the media center during April you were greeted by the rhythmical sounds of Reggae. Since April was Diversity Month listening to the music of Jamaica was perfect for our celebration. Plus, we have several members of our faculty who are from Jamaica.

Reggae is a music genre that originated in Jamaica in the late 1960s. (We listened to classical in March and we listened to jazz in February.)

The online radio station that we used to celebrate **Diversity Month** is located at www accuradio.com.

Our students also continued using biographical research tools. They used books in the 920s. The really great thing about the books in the 920s is that one book included the life stories of more than one person.

We also celebrated National Poetry Month. Not only do our students like to read poems they like to create poetry too. But the big celebration was National School Library Media Month. We used our Book Fair to help us to show the FEES Family how much we love books. Profit from the Book Fair was used to purchase brand new books for the library media center. Thank you for supporting the Book Fair!!!
